Dear Sirs

I have seen U.F.O.'s at night
for the past year and have reported them
to the radar base. They can not pick
them up on the radar screens. They
go faster than jets or planes, or any
thing I have ~~seen~~ seen about 50 or
60 people have seen them on some ~~any~~ nights.
They go over very fast two or 3 at a time.
It also was a report on them in the newspaper.
They appear to be round and glow with a white
fire. I have seen one land in a field
like a meteorite not ~~to~~ too far from me.
The object was not dangerous ~~to~~
how ever it hit the ground at 200
miles an hour! a reporter from
the newspaper seen one and did not

Turn over

know what I think some people have seen
Then 30 feet above them they make
no sound I feel sure that Alf checked
out by your people that you can
find out what they are please
believe me I know how it sounds
but it's true Alf you do what you
say you do you will help us
about 30 of us have a group ~~that~~
that watch them! They have been
coming closer! please send someone
that knows what to do! I fear that
they may really come from another
~~place~~ place they are getting closer
and closer soon they may land too
near us we have ~~thought~~ thought
about shooting them if they get
in range! Alf your people ~~do not~~
do not check this out they
attack when I have warned you
This will not look good!
please call me some day ~~and~~
at 6 o'clock in the evening
